December 23rd, 1914.

Alexander Asher, Esq.,

16 Wheeler Avenue,

Toronto.

Dear Mr. Asher:

I have to thank you very sincerely for your kind letter. My one object is to give these gentlemen fair play, and if I should find that they are in any way misusing their privileges I will at once recommend their dismissal, but I have been unable so far to discover that they having been doing so. We have thousands of Germans throughout this country who will be with us after the war is over, and if we treat them honourably now whin they can do us no harm they will make all the better citizems afterwards. I am astonished that so many people that acting with fair play is being disloyal. With many thanks,

I am,

Yours sincerely,

President.
